OFFICE OF

THE DIRECTOR OF PUBLIC HEALTH

IN MYSORE,

Bangalore, dated 20th December 1941

Date 28

No C 81-168
Encls Two letters

To

SECY LAW DEPT
2 JAN 42
GOVT OF MYSORE

The Secretary to Government,
Law Department,
Bangalore

Sir,

I have the honour to state that in his letter No 93 dated 15th November 1941, the Special Officer, Bangalore City Drainage Division, Bangalore, reports that as per personal instructions of the Dewan in July 1940, the Main Ovoid Sewer had to be extended by a length of 271 R ft from the last manhole No 3 in Sunkal Farm to enable the Monkey Tope Road being continued by filling up the open earthen channel in which the sewage was flowing This length of 271 R,ft, the Special Officer reports, is included in the estimate for Rs 3,60,000/- for extending the Main Outfall Sewer from Sunkal Farm to Koramangala Village sanctioned in Government Order No1 L 362-64/M1 32-110-169 dated 18-7-1941

The Special Officer further reports as the work of Monkey Tope could not be proceeded with unless the main line was extended this work had to be urgently taken up and completed before the receipt of Government sanction to the estimate for Rs 60,000/-

The Special Officer reports that in view of the urgency the work was entrusted to Messrs M Coomaraswamy Pillay & Co , who had ready on spot sufficient quantity of precast cement concrete blocks, at the estimated rates

As the rates for the above work already complted may not synchronise with the tender rates now to be obtained without steel re-inforcement, the Special Officer has prepared a separate estimate, as per actuals, amounting to Rs 6,640/- for the already completed portion of the work The construction of the ovoid sewer to a length of 271 R ft already done is on a concrete bed reinforced with steel

I therefore request you to be so good as to obtain and convey sanction of Government to the estimate for Rs 6,640/- enclosed herewith and approval to the action taken in letting out the work at estimated rates

Copies of letters No 93 dated 15-11-1941 with enclosure and No 106 dated 4th December 1941 of the Special Officer are enclosed herewith for the information of Goverament

I have the honour to be,
Sir,
Your most obedient servant,
Director of Public Healt

Letter No 106 dated 4th December 1941 from the Special Officer, City Drainage Division, Bangalore, to the Director of Public Health in Mysore, Bangalore

---

Estimate for 6,640/- for extending the Main Ovoid Sewer to a length of 271 R ft from the last manhole No 3 in Sunkal Farm

---

With reference to your No C 81-138 dated 21-11-1941 regarding the above, I have the honour to state that the urgency under which the work was stated has been dealt at length in this office - letter No 93 dated 15-11-1941 with which the above estimate was submitted for sanction The estimate for Rs 3,60,000/- for extending the Main Sewer was submitted as early as in February 1940 along with the project estimate for the Bangalore City Drainage and sanction to the estimate was anticipated every month In the meanwhile the short length of 271 R ft beyond the Sunkal Farm to be suddenly stated under instructions from the Dewan to enable the Monkey Thope Road being extended These facts were orally explained to you It is a technical omission that they were not subsequently confirmed in writing This may kindly be condoned

The major estimate of Rs 3,60,000/- has recently been sanctioned in Government Order No L 362-64/M1 32-110-169 dated 18th July 1941 and the proposal to construct the ovoid sewer without reinforcement has also been approved in Government Order No L 3524-27/M1 90-41-2 dated 6-11-1941 Tenders have now been - called for, for the above work with reference to the altered design The construction of the ovoid sewer to a length of only 271 R ft already done is on a concrete bed reinforced with steel but the work to be done hereafter will be without steel reinforcement Hence the two rates do not synchronise The Contractor's claims for the work already done have therefore to be settled with reference to the estimated rates

I therefore request that the estimate may kindly be sanctioned and the action taken in letting out the work at the estimated rates, without your previous approval, kindly approved, under the circumstances expalined above

S. Srinivasan

Director of Public Health

Letter No 93 dated 15th November 1941 from the Special Officer, Bangalore City Drainage Division, Bangalore, to the Director of Public Health in Mysore, Bangalore

---

I have the honour to enclose herewith the extract from the instructions of Dewan during City Inspection on 24-7-1940, received through the Municipal Engineer on 31-7-1940 in his No E 5 P /Rl 1/ 40-41 and also in accordance with personal instructions of the - Dewan to me about which I had personally reported to you and to state that the Main Ovoid Sewer had to be extended by a length of 271 R ft from the last manhole No 3 in Sunkal Farm to enable the Monkey Tope Road being continued by filling up the open earthen channel in which the sewage was flowing This was done with a view to avoid the unnecessary cost of constructing a bridge over this open channel This length has been included in the estimate amounting to Rs 3,60,000/- for extending the Main Outfall Sewer from Sunkal Farm to Koramangala Village, which had been submitted to Government for sanction along with the comprehensive scheme and since sanctioned by Government in their order No L 362-64/M1 32-110-168 dated 18-7-1941 and tenders for the above work will be invited shortly

As the work of Monkey Tope Road could not be proceeded with unless the main line was extended, this work had to be urgently taken up and completed, prior to Government sanction to the estimate for Rs 3,60,000/- for extending the main sewer

This work was entrusted to Messrs M Coomaraswamy Pillay & Co ; The Contractors had ready on spot sufficient quantity of pre-cast cement concrete blocks to enable the portion of the work being completed urgently as required It may also be stated in this connection that it would have taken a long time to prepare the required quantity of pre-cast blocks and for curing them

In view of the urgency explained, the work had to be entrusted at estimated rates to the contractor, who had materials ready for the work As the work had to be executed before receipt of sanction to the estimate of Rs 3,60,000/- which is recently sanctioned, and the tender rates now to be obtained without steel reinforcement will not synchronise with the rates paid with reinforcements, a separate estimate as per actuals amounting to

to Rs 6,640/- for this portion only is prepared and submitted for your kind sanction

I request that the estimate may kindly be sanctioned and returned to regularise the expenditure already incurred and also that the action in having let out the work at the estimated rates under the exigencies than existing, may kindly be approved

---

EXTRACTS FROM THE INSTRUCTIONS OF DEWAN DURING CITY INSPECTION ON 24th July 1940

---

7 Monkey Tope Road should be completed early The sewer construction that comes across the road should be started immediately and completed with the road Tell Mr N Krishnaiengar to start the work

---

Memo No E 5 P R 1 1/40-41 dated 31st July 1940 from the Municipal Engineer, Bangalore, to the Special Officer, City Drainage Division, Bangalore City

Copy of the above is forwarded with compliments to the Special Officer, Bangalore City Drainage Division, Bangalore City for favour of information and needful
